### **Rounding Numbers**

1. First find the rounding place and underline it.
2. Check the number next door.
3. If the number next door is 5, 6, 7, 8 or 9 add 1 to the underlined number.
4. If the number next door is 1, 2, 3 or 4 the underlined number stays the same.
5. Every number before the rounding place stays the same.
6. Every number after the rounding place turns to 0.

### **Round these numbers to the nearest ten (10)**

- |    |             |     |            |
|----|-------------|-----|------------|
| 1. | 113 - _____ | 8.  | 678- _____ |
| 2. | 382- _____  | 9.  | 504- _____ |
| 3. | 921- _____  | 10. | 611- _____ |
| 4. | 159- _____  |     |            |
| 5. | 95- _____   |     |            |
| 6. | 446- _____  |     |            |
| 7. | 137- _____  |     |            |
