Name: _____

Rounding Numbers

1. First find the rounding place and underline it.

2. Check the number next door.

3. If the number next door is 5, 6, 7, 8 or 9 add 1 to the underlined number.

4. If the number next door is 1, 2, 3 or 4 the underlined number stays the same.

5. Every number before the rounding place stays the same.

6. Every number after the rounding place turns to 0.

Round these numbers to the nearest ten (10)
