## The 3 R's

by Jack Johnson

Three, it's a magic number.

Yes, it is. It's a magic number,

Because 2 times three is 6, and 3 times six is 18,

And the 18th letter in the alphabet is R.

We've got 3 R's we're going to talk about today.

We've got to learn to ..... , ..... , .....

Well, if you're going to the market to buy some juice,

You've got to ..... your own bags

and you learn to ..... your waste.

We've got to learn to reduce.

And if your brother or your sister's got some new clothes,

You could ..... them ..... before you buy some more of those.

....., we've got to learn to reuse.

And if the first two R's don't work out,

And if you've got to make some trash, well,

Don't ..... it .....

....., we've got to learn to recycle.
