

Look at this average yearly temperature graph for two cities.

It shows the temperatures in °C for each city, every month of the year

Task 1: Use the line graph to answer the questions below.

In Dubai, approximately how far did the temperature fall from August to December?	
In Juneau, approximately how far did the temperature fall from August to December?	
Which city had the biggest drop in temperature between those months?	

Reasoning:

Which city has the widest variation in temperature over the course of a year?

Explain how you know this.

Write 3 of your own questions about the data. Ask a member of your family to answer them.

1.

2.

3.
