**7. Read the paragraph about misunderstood animals.** Complete the paragraph with words from the box. There are extra words you do not need to use.

**aggressive   bite   control   misconception   poisonous**  
**slimy   unpopular   untrue   venom**

Why are some animals popular while others are so (1) \_\_\_\_\_? In the natural world, every animal has its place and purpose. Nature doesn't judge these animals – people do. For example, it's a common (2) \_\_\_\_\_ that snakes are (3) \_\_\_\_\_ and disgusting to touch. Not true! A snake's skin is smooth and dry. Another myth is that snakes are (4) \_\_\_\_\_ and will attack humans for no reason. Also (5) \_\_\_\_\_! Almost all snakes, even (6) \_\_\_\_\_ ones, prefer to escape or hide unless they're surprised or attacked first. Snakes are very misunderstood animals.
