

3 Choose the best title for each paragraph below. Use the words and phrases from the box.

Global warming

Environment

Ozone layer

Wildlife trade

Pollution

Global warming

- a People are worried about it. The climate is changing and this is a sign that we have to care for our planet.

- b Forests are disappearing and animals can't find their habitats anymore. It is important to preserve the ecosystem so that species are protected.

- c In big cities this is a major concern. People in China sometimes have to wear masks so that they can breathe. We need a change!

- d Animals are sold as goods and this is terrible! They suffer and can't reproduce. The result? There are more endangered species. We need to keep them safe.

- e The use of spray cans through the years is causing huge damage to the layer. People have to be aware of it and buy only products that are eco-friendly.
