

## 1. Read and choose.

### A look into the future

What will your life be like in the future? What will your city be (1) \_\_\_\_\_? Imagine your town fifty years from now. There will probably be more people and (2) \_\_\_\_\_ tall buildings, but I don't think we (3) \_\_\_\_\_ travel in the same way. Cars will have (4) \_\_\_\_\_ and fly through the air, and people will drive across the city above the buildings.

School will be different, too. I don't think children will go to school. They will study on computers and see their teachers online. I think teachers (5) \_\_\_\_\_ be robots, not real people. In fifty years there (6) \_\_\_\_\_ be more robots to do everything; a robot to do your homework, a robot to clean your bedroom and a robot to do the chores. So, you will have more time to study!
