

#### 4. Examlab Listening Part4

You are given a piece of audio and six questions which correspond to the audio.  
Each given question has three options A, B and C.  
Click on the button to choose the best option for each question.

You will hear a conversation with Alex who is an expert on why people get spots.

1 - Why, according to the speaker, do some people get spots?

A) Because their hormones are overactive.

B) Because their skin may be too oily.

C) Because they need more sunlight.

2 - The speaker says you have to be careful

A) not to use certain soaps.

B) about which perfume you use.

C) how you clean your skin.

3 - The speaker says that spots sometimes

A) warn you about your health.

B) disappear on their own.

C) are a good sign.

4 - The speaker recommends people with spots to

A) eat less sweet things.

B) do less sport.

C) sleep more.

5 - The speaker advises people with spots against

A) using soap.

B) squeezing spots.

C) going out in the sun too much.

---

6 - What, according to the speaker, is the best thing to do if you have spots?

A) See the doctor.

B) Change how you live.

C) Keep your skin clean.

---
