

## I'm With You - Avril Lavigne – starter (Present Continuous)

### ***Cross out***

I'm standing/speaking on a bridge  
I'm watching/waiting in the dark  
I thought that you'd be here by  
now/today  
There's nothing but the rain/sun  
No footsteps on the ground  
I'm listening/looking but there's no  
sound

Take me by the hand/heart  
Take me someone/somewhere new  
I don't know who/where you are  
But I, I'm/he's with you  
I'm with/without you

### ***[CHORUS]***

Isn't anyone taking/trying to find me?  
Won't somebody come take me  
house/home  
It's a damn cold night/day  
Trying/telling to figure out this life  
Won't you take/get me by the hand  
Take me somewhere old/new  
I don't know/recognize who you are  
But I, I'm with her/you  
I'm with/by you

Take me by/with the hand  
Take/Make me somewhere new  
I don't know who/what you are  
But I, we're/I'm with you  
I'm with you/him  
I'm/He's with you

I'm looking/living for a place  
I'm speaking/searching for a face  
Is anybody here/there I know  
Cause nothing's coming/going right  
And everything's a mess  
And no one likes to be together/alone

### ***[COME BACK TO CHORUS]***

Oh why is everything so  
confusing/coming  
Maybe I'm just out of my mind/head  
Yea yea yea

It's a damn cold/hot night  
Trying/thinking to figure out this life  
Won't you take me by the arm/hand  
Take/Get me somewhere new  
I don't know who/where you are  
But I, I'm with/without you  
I'm with you/him
