

# SONG: WHY? BECAUSE

Listen to the song "Why? Because" again, read and match!

Why has the giraffe got a  
long, long neck?

Because it lives in ice  
and snow.

Why has the frog got  
strong legs?

Because it eats leaves  
at the top of the trees.

Why has the polar bear  
got white fur?

Because it hops, swims  
and jumps.
