

6. Examlab. Reading Part 5 Instructions:

You are given a piece of text with six spaces.

You are also given a set of four words (A, B, C, and D) which correspond to each space.

You are required to choose the correct word for each space from the set of words given.

Water Buffaloes

Water buffaloes are (1) to cows, and there are two kinds, wild Asian Water Buffaloes and domestic Asian Water Buffaloes. They live mainly in south Asia and south America. They are (2) Water Buffalo because they spend much of their day in the muddy waters of tropical forests. They have special hoofed (3) which prevent them from sinking too deeply in the mud. This allows them to (4) about in wetlands and swamps. These buffaloes are (5) for their milk, which has more fat than that of cows. Females normally give (6) to calves every other year.
