

## 7. Examlab. Listening Part 4

You are given a piece of audio and six questions which correspond to the audio.  
Each given question has three options A, B and C.  
Click on the button to choose the best option for each question.

*You will hear a conversation with Andy who is an expert on how to do well in school.*

1 - Why is taking notes in class important?

A) The teacher sees that you are participating.

B) The teacher's comments become easier to understand and remember.

C) Your parents can see that you have been working.

2 - Why is the Cornell system effective?

A) It lists only the main ideas.

B) It helps you ignore a lot of stuff.

C) It organizes the information you have to learn.

3 - When should the Mapping system be used?

A) This is very useful if the subjects are closely related.

B) This is good for creative people.

C) This is useful if you need to travel somewhere.

4 - How can the Mapping system be improved?

A) Using geometric shapes is a good idea for this method.

B) Using a ruler makes this system better.

C) This system is improved if you use colours.

---

5 - For what kinds of topics is the Outlining system best?

A) It is helpful if the subject has a lot of diagrams.

B) It is best for subjects with a lot of detail.

C) It is good if you only want the outline of a subject.

---

6 - What kind of structure does the Charting method use?

A) It uses columns and rows which are connected.

B) The structure it uses is mainly circular.

C) The structure depends on making lots of charts.
