INDICATORS:

Recognizes specific information from audios about superstitions in order to give spoken responses.

In this <u>listening/speaking</u> practice, we will be practicing the open-ended questions. This kind of answer is very common in exams. Listen and pronounce clear and aloud.

<u>Listen to this BBC radio program about English superstitions and answer questions 1-7 below.</u>

Warning: speech recognition only works in Google Chrome (PC and Android).

Example:
What should you touch if you want good luck?

A. Wood

B. Mood

Wood

You have to decide what the correct answer is. After that, you have to click on the red microphone and speak. Say the word/words you chose as correct answer. Pronounce clear and aloud. Use headphones with a microphone, if possible.
