

# In The Wild

**First things first! Read the story before doing the activities**

1. Click on the pictures of the animals that mentioned in the text:

2. Match the animals with their food:

Meerkats

Insects and eggs

Lizards

Insects

Hyenas

Insects, fruit and eggs

Armadillos

Big and small animals

3. Read the questions carefully. Then, choose the correct answer:

Where do meerkats live?	
Do lizards like sitting in the sun?	
Can hyenas run?	
Where do armadillos live?	

4. Read the descriptions carefully. Then, write the correct animal:

HYENAS	LIZARDS	ARMADILLOS	MEERKATS
--------	---------	------------	----------

They are small, brown and grey. They live in big families. Their tails are long and thin. They are very funny!	
They live in Africa. They are very dangerous animals. They make strange noises. They laugh, but they are not funny!	
They are grey and small. They smell to find their food, they are very smart. They don't like cold climates.	
Their tails are long. They can change colour. They are very lazy. They like to sit in the sun:
