4 Complete the course review with the *-ing* form of these verbs.

create   do   improve   know   learn   spend   watch   work

A **great** course! ★★★★☆

Before I took this course, I thought that ¹............................ a computer language was difficult. It's actually not. ²............................ three hours a week on the course was the most difficult thing for me. I'm not very good at ³............................ independently and ⁴............................ a film always seemed more fun. I made myself do the work, though, and I'm glad I did. I now enjoy ⁵............................ my own apps. They're just simple ones but I'm looking forward to ⁶............................ my skills in future with a more advanced course. I think that ⁷............................ a course like this is good for all teenagers. ⁸............................ how to program will probably be a really useful skill in the future.
