Susan:

Hi Kelly!

I advise you, that you should do physical exercise, it is very important and good for weight loss. You can start by doing small exercise every day. You can also go for a walk a friend of yours to go along.

Another important thing if you want to lose weights is your diet. You should have a diet rich on vegetables and fruit. You should not eat fast food because they have many calories. You have eaten different fruits, vegetables and other healthy habits. Having a healthy diet doesn't mean you have to be hungry all time and that food can't be tasty as well.

I hope this can help you!

Bye Kelly!
