**2** Listen and fill in the blanks to complete the conversation. [Track 46](#)

CHARLIE: I've just seen the news on TV. There was a \_\_\_\_\_ in India. Hundreds of houses were \_\_\_\_\_.

STUART: Yeah, there have been a lot of natural disasters lately.

CHARLIE: I know. The \_\_\_\_\_ is causing the planet's \_\_\_\_\_ to increase.

STUART: That's why there have been so many climate changes, right? \_\_\_\_\_, super storms, more and more floods around the world.

ALICE: There is ample evidence that we are producing more and more gases which increase the Earth's \_\_\_\_\_.

STUART: You're right. It's getting worse and worse.

CHARLIE: Well, there are actions we can take. I have read it is still \_\_\_\_\_ to save our planet.

ALICE: You're right, \_\_\_\_\_ materials is really important.

STUART: We can also ride bikes instead of driving everywhere.

CHARLIE: People can also use alternative sources of energy, like solar power or \_\_\_\_\_ generators.

ALICE: That's \_\_\_\_\_. The quality of not \_\_\_\_\_ the planet more than we already have!
