

USED TO/ DID NOT USE TO/ WOULD

KONU AÇIKLAMASI

USED TO:

a) Used to geçmişte yaptığımız ama artık yapmadığımız ya da geçmişte sık/seyrek yaptığımız ama şimdi az/sık yaptığımız eylemleri ifade ederken kullanılır.

Example: I used to go to park very often when I was at primary school but now I do not like going to park.

b) 'Used to' nun olumsuz biçimi 'used not to' ya da 'did not use to' dur. 'did not use to' daha çok kullanılır, 'geçmişte yapmazdım ama şimdi yapıyorum' anlamını verir.

Example: I did not use to walk to school in kindergarten but now I go to school on foot.

c) Used to geçmişte yapılmış olan bir tek olayı ifade ederken kullanılmaz.

Example: When I was iceskating yesterday, I fell down and broke my leg. (Devam etmemiş olay, bir alışkanlık değil. Düşüm ve kolumu kırdım, anlık olay.)

d) Used to hem eylem bildiren fiillerle hem de durum bildiren fiillerle kullanılır.

WOULD:

Geçmişteki alışkanlıklarımızı, sürekli yaptığımız işleri 'would' ile de ifade edebiliriz. Ancak 'would' sadece eylem bildiren fiillerle kullanılır. 'Be, have, know' gibi durum bildiren kelimelerle kullanılmaz.

Example: We would skip rope when we were younger.
