

Place Value Expanded Notation 2.

Write the numbers in expanded form.

Example: $421 = \underline{400} + \underline{20} + \underline{1}$

1. $495 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

2. $72 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

3. $874 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

4. $83 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

5. $523 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

Write the standard form of these expanded numbers

Example: $\underline{400} + \underline{20} + \underline{1} = 421$

1. $30 + 4 = \underline{\hspace{2cm}}$

2. $900 + 50 + 8 = \underline{\hspace{2cm}}$

3. $20 + 7 = \underline{\hspace{2cm}}$

4. $600 + 90 + 2 = \underline{\hspace{2cm}}$

5. $50 + 9 = \underline{\hspace{2cm}}$
