MYSTERIOUS CASTLE

On 2008, Alex and I played hide and seek. We played it every weekend, but this time something strange happened.

I found a mysterious castle. Meanwhile, Alex sought in the trees. A spider bit him in the arm and Alex felt a very painful sickness. Then, he became an invisible man. I hid in a very old bedroom for an hour. Alex could break through the walls and found me. Suddenly, Alex and I saw our families from the past and the future. Our families looked at us from a portal. When they came through it, lots of ghosts appeared. We had a party.

In the end, Alex became a normal boy and we were happy forever.
