Area and Perimeter

Tuesday

Press play

There are 2 rows of 1-centimeter squares in Rectangle A.
There are 4 squares in each row.

$$\begin{aligned} \text{Area of Rectangle C} &= \text{Length} \times \text{Breadth} \\ &= 3 \text{ cm} \times 4 \text{ cm} \\ &= 12 \text{ cm}^2 \end{aligned}$$

Area of rectangle = Length \times Breadth

Find the area of each rectangle.

a) Area of Rectangle D = $\text{Length} \times \text{Breadth}$
 $= 6 \text{ m} \times 3 \text{ m}$
 $= 18 \text{ m}^2$

b) Area of Rectangle E = $\text{Length} \times \text{Breadth}$
 $= 4 \text{ m} \times 4 \text{ m}$
 $= 16 \text{ m}^2$

Write down the length and breadth of each rectangle.
Then find the area of the rectangle.

Rectangle	Length	Breadth	Area
A	4 cm	2 cm	8 cm ²
B			
C			
D			
E
