MY BEST Friend

My best friend is Lucas. He is eleven years old and he's from Spain. We go to school together. He's really good at Maths. He's very kind and helpful. He always helps me with my Maths homework.

Lucas always plays the guitar. He has music lessons on Mondays after school. He sometimes plays the piano. He goes to the swimming pool on Tuesdays and Thursdays.

In his free time, he reads comics and listens to music. He doesn't play computer games on weekdays. He usually does sports.

We skateboard together at the weekend. We usually make video calls before dinner. He's a good listener. We have lots of fun together!
