# HOW TO WRITE A LOVE LETTER TO THANOS USING SIMILES?

Dear Thanos,

Snapping the world into oblivion is as dull as \_\_\_\_\_. It

can be a process that is as quick as \_\_\_\_\_. However, there are many other interesting ways to end the world. We can suggest a few for your consideration. Kicking the world right into the sun can be fun. It

will be as hot as \_\_\_\_\_ and can be a feat you can be as

\_\_\_\_\_ as a peacock about. Imagine, telling your buddies, “I kicked the world into the sun.” However, if the Earth accidentally bangs into one of the other planets in the process, We are fairly certain the other aliens will not be as \_\_\_\_\_ as cucumbers. But, if

you kick the world into oblivion, what will you eat? Without McDonalds, Kfc or Ya Kun Kaya toast, don’t you think you would be as hungry as a

\_\_\_\_\_?

You might think we are quite different in our approach. You might even think we are as different as \_\_\_\_\_. Let me assure you that it isn't true. In fact, it is as clear as \_\_\_\_\_ our desires are aligned especially when it comes to ending the world. You could say we are as \_\_\_\_\_ as two peas in a pod. It doesn't matter how we end the world. It doesn't matter if we stuff Earth into a cosmic freezer or play alien ping pong with it. As long as we end it, we will be as \_\_\_\_\_ as larks. Please don't tell the avengers we told you of our grandiose plans. Let's keep it a secret.

Kisses,

Pinky and The Brain
