**1. Read Micaela's letter and solve the activities below.**

# FUTURE ME

Dear Me from The Future;

Now, you are five years older. I'm sure you still live with your parents in Pergamino and that you still love helping others and hang out with your friends. I'm also sure you are still best friends with Juli, Romi and Rocío and that you still like reading books, listening to good music and dancing. Are you still good at English? You really liked it!

I hope you don't eat snacks because you know they are really bad for your health. I also hope that you don't have to share rooms with your brother because he never helps you tidy. Soon, you are going to finish high school and I hope you are prepared to go to university. Do you know what you want to do for the rest of your life?

I'm going to tell you my hopes for the future: I hope you will go to university to study something you really like and feel passionate about so, when you get a job, you will have fun too. I hope you will have your own house with a huge backyard so can have as many pets as you like. I hope you will travel around the world and do some exciting things so life is fun too. Finally, I hope you will always remember how special you are!

Have a great future!

Lots of love,

Your Past Self.

**2. Read the sentences and decide if they are T (true) or F (false)**
