

Let's Do

Box House

Things you need:

- glue
- ruler
- 60 popsicle sticks
- scissors
- knife
- old newspapers

3

Theme 1: People and Culture

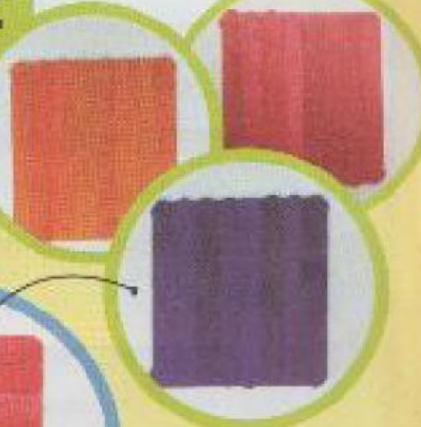

Take four popsicle sticks and glue them at all the corner.

1

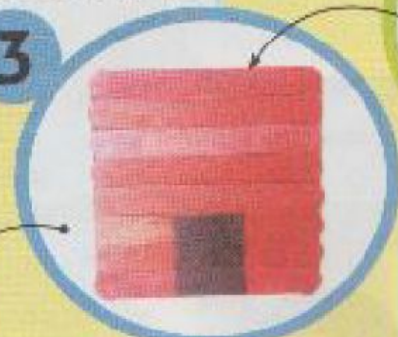

With the square lying flat, fill in the square with enough sticks to cover the entire square. Make six of them.

2

Take one piece of the square and cut out a door.

3

Take another square and cut out a window. Repeat this with another square(s).

4

Take all the six squares and glue them together to form a house.

5

2.1.1PM

- ▶ Zamri wants to learn on how to make a box house made of popsicle sticks from Livan. Complete the conversation between these two friends.

cut out a door

glue all the six squares

cut out a window

take four popsicle sticks and glue them at the corners

fill in the square with enough sticks to cover the square

1 Livan, can you teach me how to build a box house? I have all the things needed here.

2 Sure, Zamri. First you _____

3 Okay! I have done that,

4 Good! Next, _____
Make six of them.

5 Done, Livan! Now what?

6 Good! Now you have six squares. Take one and _____ using a knife.

7 Next?

8 After that, take another square and _____. Repeat this step with another square.

9 So, now I have two pieces of squares with windows.

11 Wow! I have a box house. I can now decorate my box house.

10 Lastly, _____ together to form a box house.
