Payphone

I'm at a paidphone payphone, trying to call home
All of my change, I spending spent on you
Where have the times went gone? Baby, it's all wrong
Where are the plans we made make it for two?

Yeah, I, I know it's hard to reminder remember
The people we used to deal be
It's even harder hard to picture
That you're not there here next to me
You say it's too late to made make it
But is it too late later to try?
And in our time that you wasting wasted
All of our bridges burning burned down

I've wasted wasting my nights
You turned turning out the lights
Now I'm paralyzed paralyzing
Still stuck in that time when we calling called it love
But even the sun sets falls in paradise

I'm at a payphone, trying tried to call home
All of my change changed, I spent on you
Where have the times gone? Baby, it's all wrong
Where are the plans we make made it for two?

If "happy ever after" will did exist
I would still be hold holding you like this
All those fairytales were are full of shit
One more **** love song, I'll be been sick, oh

You turned turning your back on tomorrow'
Cause you forgot forgive yesterday
I give gave you my love to borrow
But you just gave give it away
You can't expect me too to be fine
I don't expect you to dare care
I know I saying said it before
But all of our bridges turned burned down
