

Strauss Preparatory School

Name: Dimeji Olugbodi

Subject: Geography

Learning objective: I can locate key mountain ranges of the world.

Use a map/atlas to label the following mountain ranges in Europe:
Pyrenees, Alps, Carpathians, Apennines, Urals, Balkan Mountains.

Extension Task:

Research where the highest peaks within Europe are located and label them on your map.

1. Name the highest peaks in each of the ranges you researched in the task above and write their heights.

Pyrenees	<u>Name of highest peak:</u>	<u>Height:</u>
Alps	<u>Name of highest peak:</u>	<u>Height:</u>
Carpathians	<u>Name of highest peak:</u>	<u>Height:</u>
Apeninnes	<u>Name of highest peak:</u>	<u>Height:</u>
Urals	<u>Name of highest peak:</u>	<u>Height:</u>
Balkan Mountains	<u>Name of highest peak:</u>	<u>Height:</u>

2. Rewrite your list from question 2 in ascending order:

1.	2.	3.	4.	5.

3. Fill in the table below using a map to get the information.

Mountain Area	Continent	Mountain Name	Height in metres
Andes Mountain		Anconcagua	
	North America		4399
		Mount Everest	
Pyrenees		Pic De Aneto	
Alps			4807
Great Dividing Range	Australasia		2209
		Mount Elbrus	
Ethiopian Highlands			4307
