READING

A. Read the following texts carefully.

1. Eating out

The British have "imported" food from very different cultures, e.g. the Indian, the Chinese and the Italian.

One reason for the popularity of these types of restaurant is that they are often much cheaper than the more traditional British ones which serve a mixture of British and French cooking.

In the larger cities there is a great choice of restaurants. A good example of this are the vegetarian restaurants which offer a different type of food.

2. Take-away food

Restaurants often have a take-away service in which you buy the food cooked and take it to eat elsewhere. The most common are Indian, Chinese and Italian pizza take-away and there are also the American fast-food restaurants. The original British take-away food is fried fish and chips (fried potatoes) and there are still hundreds of fish and chip shops.

3. Self-service

Another cheap way to eat out is to go to a self-service cafe where you serve yourself from a counter and pay for your food before eating it.

Many self-service restaurants now offer a good range of salads and hot meals.

4. Restaurants

Restaurants are usually more expensive than fast-food restaurants or self-service cafes.

Most restaurants show a menu outside the building so you can see the type of food served and the prices.

Drinks such as wine and beer usually cost more in a restaurant than in a shop or pub.
