

ANSWER OF THE FOLLOWING SUMS:

1. Write the place value of the circled digit:

$36\textcircled{8} = \boxed{}$

$5\textcircled{8}3 = \boxed{}$

$\textcircled{8}70 = \boxed{}$

2. Arrange the following numbers in descending order:

$367 \quad 375 \quad 689 \quad 340 = \boxed{} \boxed{} \boxed{} \boxed{}$

3. 1 less than 300 = $\boxed{}$

4. 2 more than 269 = $\boxed{}$

5. 6 hundreds + 8 tens + 9 ones = $\boxed{}$

6. The smallest 3-digit number is $\boxed{}$

7. $987 = \boxed{}$ hundreds + $\boxed{}$ tens + $\boxed{}$ ones

8. How many tens are there in 239? $\boxed{}$ tens

9. What comes between 339 and 341? $\boxed{}$

10. Write the number of 893:
name $\boxed{}$

11. Insert >, < or = sign: 8 tens $\boxed{}$ 92

12. Expand: $436 = \boxed{} + \boxed{} + \boxed{}$
