

POLAR BEAR

My favourite animal is the polar bear. This animal lives in the far north. It's a huge animal with thick white fur, big legs, a short neck and very sharp claws. It weighs up to 600 kg and it can swim and hunt very well. It can swim 100 km! It eats other animals like seals and whales. The polar bear sleeps a lot in the winter. I really like this animal because it's extremely powerful and beautiful.

Polar bears live in the north.

yes **no**

They have thick white fur.

yes **no**

They have got a long neck.

yes **no**

Their claws are very sharp.

yes **no**

They weigh up to 100 kg.

yes **no**

They eat zebras and giraffes.

yes **no**

They sleep a lot in summer.

yes **no**

They hunt seals.

yes **no**
