# Evaluating What You Read

---

Read each of the story situations below. Decide whether you agree or disagree with what the character said, did, or thought about the situation. Then explain why you feel as you do.

1. When Peter told Annemarie and her parents about the ways the Germans were tormenting Danish Jews, Annemarie said that the people of Denmark needed to act as bodyguards for the Jews. Do you agree or disagree that the people of Denmark should feel responsible for protecting the Jewish citizens of their country?

2. Annemarie remembered when she had been little and had announced that she would be willing to die to protect the king. Now she wasn't sure that she would truly die to protect someone else. She decided that ordinary people like herself and her family couldn't be expected to have that kind of courage. Do you agree or disagree that only special people like soldiers and heroes are expected to have courage?

3. When it was obvious that the Germans were going to take control of Denmark, the Danish king decided to destroy the country's navy. The king thought it was better to have no navy at all than to let the Germans use the ships in the war. Do you agree or disagree?
