1 What is the main problem? Listen and choose.

1 Earth's population is growing. ☐

2 It is difficult to move resources from one place to another. ☐

3 People depend on technology too much. ☐

4 We don't know how to cure certain diseases.. ☐

1 What is the main problem? Listen and choose.

2 Listen and number the problems in order. ✦ Listen again and write the numbers of the solutions for each problem.

Problem: Need for Energy → ☐ ☐

Solutions:

Problem: Need for Food → ☐ ☐

Solutions:

Problem: Need for Water → ☐ ☐ ☐

Solutions:

Problem: Need to Stop the Spread of Diseases → ☐ ☐ ☐

Solutions:

1 taking salt out of seawater

2 handheld satellite technology

3 robots that analyze crops

4 computer simulations

5 solar-powered water filters

6 cell phone app for grocery stores and restaurants

7 wind and solar power

8 power from ocean currents

9 systems for storing and moving water

10 research technologies
