Reading Task- Take Shape 2

1. Using the words from the box complete question 1 to 5.

Computer store, toy store, shoe shop, ice cream shop, supermarket, bookstore, candy shop, music store, clothing store.

1. Where can I buy a book? At the _____.
2. Where can I buy a skateboard? At the _____.
3. Where can I buy a guitar? At the _____.
4. Where can I buy some milk? At the _____.
5. Where can I buy a computer? At the _____.

2. Read the text. Match the prices with the items

The mall near my house is very big. There are four clothing stores but there's one bookstore. There are two supermarkets but there aren't computer stores. There's one big department store and one juice bar. You can buy so many things, in the clothing stores the dresses are thirty-five dollars. In the bookstore, the books are thirteen dollars. In the supermarket, the orange juice is three dollars. And in the department store, you can buy toys, a teddy bear for five dollars.

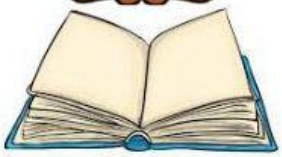

a. Read the description of the mall and write the stores it has.

b. Read the text and math the object with the price

$35

$5

$3

$13
