An illustration featuring large, colorful numbers. On the left, a red number 6 is positioned above a green number 3, which is resting on a white number 1. To the right of the 1 is a purple number 2. All these numbers are placed on top of a spiral-bound notebook. In the upper right corner, there is a white rectangular box with a blue border containing two cartoon-style tiger faces. The tigers have orange fur with black stripes and are looking towards the right. A small portion of another purple number, possibly a 5 or 6, is visible on the far right edge.
