

## **8.7 Level 2 Math Problem of the Day**

1. If there were 5 singing acts, 3 magic acts, 4 dance acts, and 2 people playing instruments, how many talent show acts are there total?

$$5 + 3 + 4 + 2 = \underline{\hspace{2cm}}$$

15

22

14

2. If the 811K talent show has 10 acts and each act lasts 2 minutes, how long will the talent show be?

$$10 \times 2 \text{ minutes} = \underline{\hspace{2cm}}$$

20

minutes

12
