

## LET'S PRACTICE: Habitats and plants

1. MATCH the vocabulary with the pictures.

Ocean

Rainforest

River

Desert

Lake

Pond

2. Drag the functions of each part of the plant.

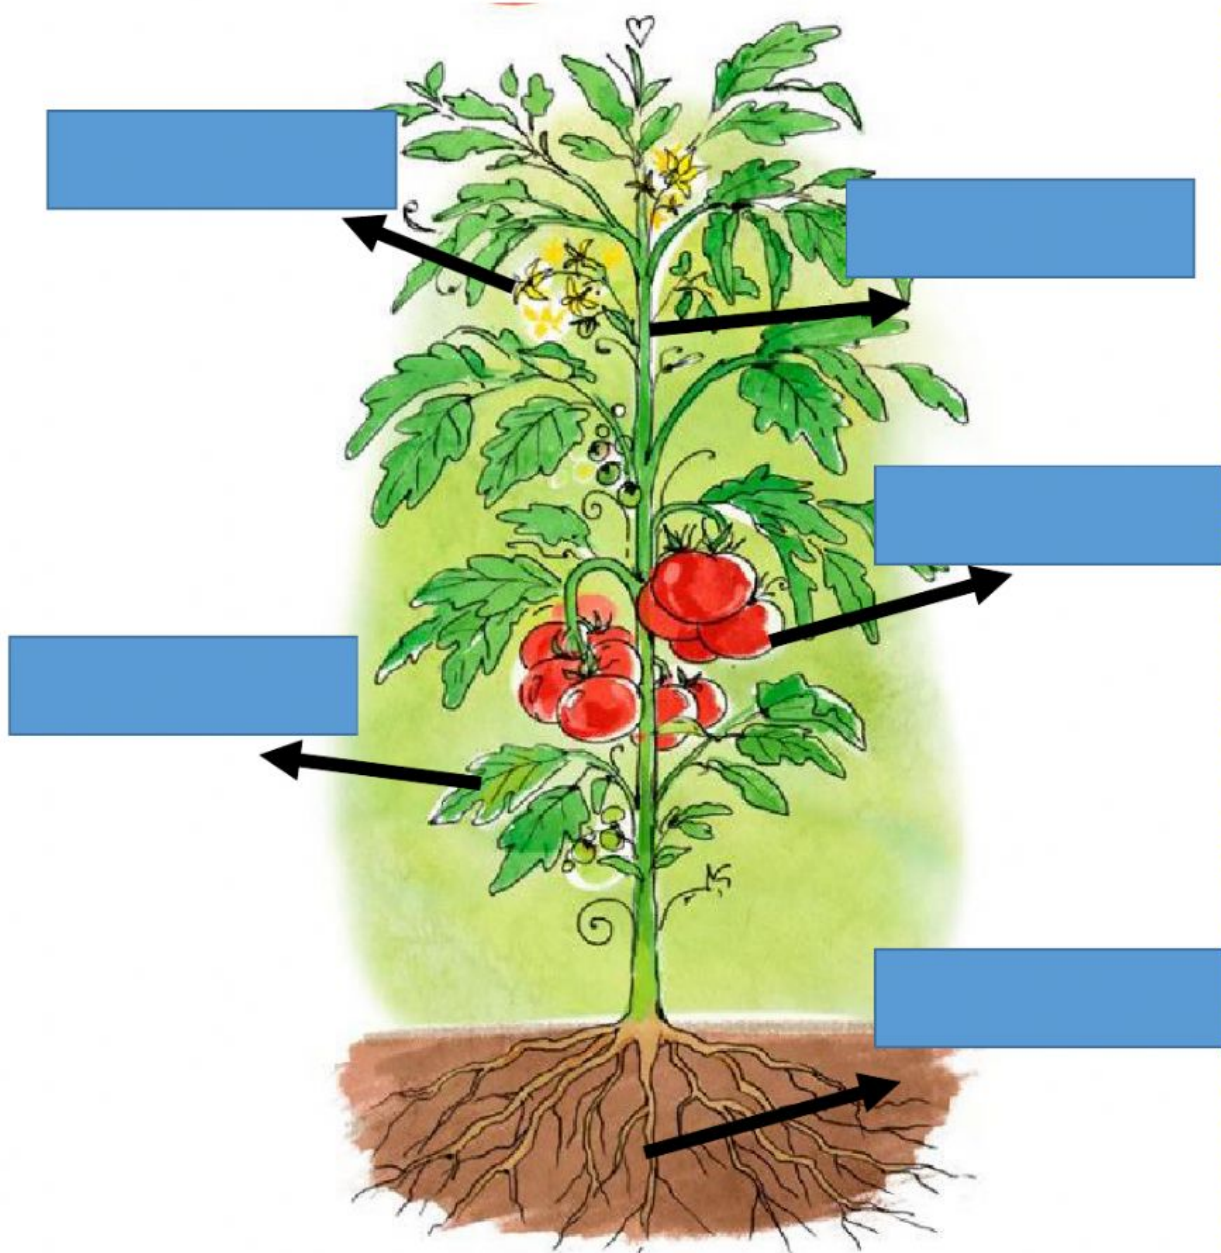

ABSORBS minerals  
and nutrients

TRANSPORTS water  
and minerals to leaves

CONTAINS seeds

MAKES food

CONTAINS seeds  
and ATTRACT insects

3. LOOK at the pictures and ORGANIZE the germination process of a plant.

ROOTS come out of the seed and stem grows

SEED contains an embryo

Baby plant looks for sunlight

LEAVES are out of the ground.

STEM grows upwards and LEAVES come out.
