

ENGLISH ACTIVITIES

ACTIVITY 6

An eco-friendly school.

Objective: Students will understand some important ideas to protect the environment.

1. Read the article and answer the following questions.

Nueva Esperanza is a school in Cabuyal, close to Jama in the province of Manabí. It started in 2008 and it protects the environment. It is one of 80 “eco-friendly” schools because it has an ecological structure that uses only local materials like wood, sugar cane, and palm leaves. It uses education based on motivation and gives students the skills they need. The local community pays for the school. It is not on a street, but next to the ocean so students study enjoying the breeze and waves!

1) When did the school open?

.....

3) What does the school give the students?

.....

2) Who pays for the school?

.....

4) Why is it “eco-friendly”?

.....
