

week #29

water Cycle/3rd Grade

Match the terms on the left with the corresponding information on the right.

water becomes ice ♦

♦ 100°C (212°F)

water may turn to vapor ♦

♦ thermal energy

water may gain or lose ♦

♦ at 0° C (32°F)

Complete the following statement with the correct term. Drag the terms.

condensation

evaporation

water cycle

precipitation

\*When liquid water gains thermal energy \_\_\_\_\_

\*Water moving from Earth's land, to the air, and back again \_\_\_\_\_

\*Rain, snow, sleet, or hail \_\_\_\_\_

\*Gas turning into a liquid \_\_\_\_\_

Drag the following terms where they belong.

condensation

evaporation

precipitation
