

SIMPLE PRESENT ACTIVITY

Read the following text:

Facts about a teenager

Jane is a very intelligent teenager. She is fifteen years old and has two brothers. She goes to school in the morning and helps her parents with their restaurant in the afternoon. In the evening, she studies English at a private school. She likes Italian and Mexican food; she eats pasta almost every day and once in a month, she goes to a Mexican restaurant with her family.

Her brothers don't like to study but they help their parents in the restaurant too. They like to work with food and their family business. Jane likes Science and she wants to be a doctor. Her father tells her that it is necessary to keep studying a lot. Jane tells her father: "Yes, you are correct. This is my dream and I know I can be a very good doctor."

Jane's family sometimes has problems like everyone else, but they never give up and try to solve all of them together, that's the key to success!
