Hello Friends! Today we are going to learn how the sun appears.

During the day, the Sun appears to be moving across the sky. The moving sunlight causes us to have **shadows**. look at the picture below!

Now, choose an image that has a shadow below, according to the conditions in the daytime.

MORNING

DAY TIME

EVENING

SD Tumbuh – Jogja Educational Spirit

Kelas : Lower A

Inquiry : Who we are

Mata Pelajaran : IL

Teacher's feedback:

Nama : _____
 Tanggal : _____

Let's practice!

Arrange the random pictures below into one complete and correct picture!
