THE OPEN ROAD- ROUTE 66

Designed by: Miss Diany

1. Choose true or false

The first cars were built in 1980

People started driving cars on paved roads.

Few people owned cars.

Cars were very cheap.

There were many gas stations and road maps.

Henry Ford began making the Model T.

The Model T was much more expensive than other cars.

In 2006 the U.S government gave states money for transportation.

Route 66 was not one of the first good highways.

Route 66 connected towns and cities from Chicago to Los Angeles

Merchants built gas station, motels and diners along the highway

By 1930, truckers used Route 68 to transport goods.

Route 66 became the perfect open route.
