## RADIO SHOW: THUNDER AND LIGHTNING SAFETY!

People often say that lightning never strikes the same place twice and that it always hits the tallest building. Believe it or not, these ideas are simply not true. If you want to be safe, you have to follow Dr. Cox's advice.

If you're outside...

- ☐ try to find shelter.
- ☐ play golf or go boating.
- ☐ lie flat on the ground.

If you're inside...

- ☐ use the phone.
- ☐ unplug electrical appliances.
- ☐ use faucets and sinks.
