An ORDINARY VEGETABLE?

If you asked People to name an important vegetable, What ANSWER would you expect? Probably potatoes, carrots or corn. Not too Many People would say Onions – a vegetable that makes us cry and gives us bad breath. But According to Recent surveys, Onions are grown and eaten in more countries than any other vegetable.

5- Onions were one of the very first crops cultivated by man. The Ancient Egyptians were already growing Onions 5,000 years ago. The onion was important in Egyptian religion and culture. With its many layers of circles, it was a symbol of eternal life. Egyptians painted pictures of Onions in their pyramids and buried Onions with their dead.

10 -For the Ancient Greeks and Romans, the onion was a food and a medicine. The Greeks believed that Onions were the food of champions. Before Olympic competitions, Greek athletes drank onion juice and ate lots of Onions. Both the Greeks and the Romans used Onions in medicines to treat a variety of illnesses.

15- Onions are still an important food in most parts of the World Today – They are grown and eaten in over 175 countries. There are several reasons for this. They grow well in different climates, they are easy to Transport and they can stay fresh for a long time.
In addition, Onions are good for your health. Modern research has proven that the Ancient Greeks and Romans were right. The onion is ONE of the healthiest vegetables in the World. It is low in calories and has a lot of vitamins and minerals.

20- As People search for low-fat, low-salt But tasty meals, They ARE eating More and More Onions. For example, Americans eat 50% More Onions Now than They did 10 years ago. With All the benefits of Onions, this is a positive trend.
