## II. READING

### 1. Read the passage. Decide whether the sentences are true (T) or false(F). Circle T or F.

Richard Ryan is stuck in traffic. There must be an accident somewhere up ahead because he's been sitting in the same spot for the last few minutes. The cars aren't moving at all. It looks like it's going to be another slow commute.

Even though he left his house early to beat the traffic, if the cars don't start to move soon, Richard will be late for a very important meeting. He has to meet with some lawyers who are advising his company on a construction project. Richard is the president of a big company. If he's late, he won't get in trouble, but he hates to be late for anything.

Sergey is stuck in the same traffic jam, and he's headed to the same meeting that Richard is going to. He's worried about being late, so he gets out his cell phone and calls one of his coworkers to tell her that traffic is bad. Sergey doesn't know that his boss, Richard, is in the same traffic jam. If he knew that, he wouldn't be so tense.

| 4M. Sergey phones his boss to inform about the traffic.     | T | F |
| 5D. Sergey is tense because his boss is in the traffic jam. | T | F |

### 2. Read the following passage. Fill each of the gaps in the notes with NO MORE THAN THREE words.

The effects of overpopulation are quite severe. Most of the environmental damage being seen in the last fifty years is because of the growing number of people on the planet. The first of these is the running out of resources. The Earth can only produce a limited amount of water and food, which is falling short of the current needs. Natural energy sources (coal, oil gases) will also be used up if we don't find alternatives sources soon.

Rise in the number of vehicles and industries has badly affected the quality of air. Rise in amount of CO<sub>2</sub> emissions leads to global warming. Melting of polar ice caps, changing climate patterns, rise in sea level are few of the consequences that we might we have to

face due to environment pollution.

OVERPOPULATION leads to (1)\_\_\_\_\_

- Exhaustion of (2)\_\_\_\_\_

E.g.

- Shortage of water and food
- Running out of (3)\_\_\_\_\_

- (4)\_\_\_\_\_ affected by rising number of vehicles and industries

- (5)\_\_\_\_\_ causes negative phenomena: melting ice caps, rising sea level, etc.
