

EVALUACIÓN GRADO DÉCIMO 2020
DOCENTE: FRANCY JOHANNA MORENO

1. Determine el número de oxidación para las siguientes sustancias puras.

H_2SO_4	Cl_2	H_2S	NaOH	Cl_2O_7	KMnO_4

2. Arrastra cada fórmula y ubícala en el esquema según corresponda

The diagram shows a cat's silhouette containing a network of circles and arrows. The circles are arranged in a hierarchical structure: a top circle, two circles below it (one labeled 'Ca', one labeled 'Cl'), a central circle below those, two circles below that, a central circle below those, and two circles at the bottom. Arrows indicate connections between these circles. On the left side, there are two additional circles connected to the main structure by lines.

- O_2
- HCl
- CaOH
- H_2
- HClO_4
- Cl_2O_7
- H_2O
- CaH_2
- CaO
- CaCl_2
- $\text{Ca}(\text{ClO}_4)_2$
