

RAW MATERIALS, PROCESSED MATERIALS AND FINISHED PRODUCTS

LIVEWORKSHEETS EXERCISES (Key vocabulary: <https://es.liveworksheets.com/jd1067070re>)

1º. Watch the video. Then listen to the definitions and fill the gaps. *Use lowercase letters.*

1. RAW MATERIALS

2. PROCESSED MATERIALS

3. FINISHED PRODUCTS

<https://youtu.be/1WX9YZ-DkWE>

A _____ material **is** a _____ that we _____ directly from **nature**.

_____ material **is** _____ that **has been prepared** and **is** available for _____ other **products**.

A _____ product **is** an **object** _____ by a **human being** to **satisfy** a _____ or to _____ his/her **quality of life**.

2º. Listen to the definition and choose the proper term.

RAW MATERIALS

PROCESSED MATERIALS

FINISHED PRODUCTS

RAW MATERIALS

PROCESSED MATERIALS

FINISHED PRODUCTS

RAW MATERIALS

PROCESSED MATERIALS

FINISHED PRODUCTS

2º. Match/move the *substance, material or object* towards the correct group.

RAW MATERIALS	PROCESSED MATERIALS	FINISHED PRODUCTS

3º. Classify these raw materials according to its origin:

ANIMAL	VEGETABLE	MINERAL

CLAY

SILK

SAND

COTTON

LEATHER

MARBLE

GOLD

WOOD

WOOL

IRON

ORE

ALUMINUM

CORK

4°. Select the raw materials where these processed materials come from:

Paper comes from ...

Wooden planks come from ...

Granules of plastic come from ...

Metals come from...

A glass comes from ...

5°. Order the steps that we follow to make a finished product:

1°	
2°	
3°	

6°. Make sentences, as in the example, to indicate how was made the finished product from the raw material.

tree trunks

wooden planks

furniture

we **take** *tree trunks* from the forest, which we **transform into** planks of wood, which we then **use to make** furniture.

tree trunks

paper

books

petroleum

granules of plastic

bottles

cotton

fabric

T-shirt

minerals

iron

fork
