INGLES TECNICO II

1. Lee el texto sobre el rol del MECANICO y escribe si las oraciones son VERDADERAS (T) o FALSAS (F), según el texto.

An auto mechanic is a person who diagnoses the problem a car may have accurately and quickly. Their job may involve the repair of a specific part or the replacement of one or more parts as assemblies.

Basic vehicle maintenance is a fundamental part of a mechanic's work in modern industrialized countries while in others they are only consulted when a vehicle is already showing signs of malfunction. Maintenance is also a fundamental part of a mechanic's job. Replacement of various parts before failure, avoid far more expensive damage. Because this means that parts are replaced before any problem is observed, many vehicle owners will save a lot of money. A mechanic has to inform the client, the price of the repair before starting.

With the rapid advancement in technology, the mechanic's job has evolved from purely mechanical, to include electronic technology. Because vehicles today possess complex computer and electronic systems, mechanics need to have a broader base of knowledge than in the past.

Due to the increasingly labyrinthine nature of the technology that is now incorporated into automobiles, most automobile dealerships and independent workshops now provide sophisticated diagnostic computers to each technician, without which they would be unable to diagnose or repair a vehicle.

- a) A mechanic always performs the same task.
- b) One of his/her tasks is to diagnose the problem.
- c) Car mechanics have to inform the client of the price of the repair.
- d) Sometimes they have to replace some parts of the car.
- e) The mechanic's job has remained the same for many decades.
- f) Thanks to computers, mechanics only need to know a lot about cars.
- g) Computers are being used to help the mechanic to diagnose the problem with the car.

2. Arrastra el nombre de las partes dl exterior del vehículo al lugar correcto.

Cut out the words and stick them in the boxes to label the car.

windscreen

boot

wheel

door

bonnet

window

bumper
