- **Pick two things from the list that you don't like.** _____
- **Pick two things you eat or drink a lot of.** _____
- **I like** _____
- **I don't like** _____
- **I** _____ **a lot of** _____

THE FAIRY DOCTOR

By Caroline Sedgwick

Once upon a time, there was a little girl called Susana; and she was a very good girl and she was very pretty and she was very clever; and her mummy and daddy loved her very much.
And one day, Susana, started limping, she couldn't walk properly, and her leg hurt and her mummy and daddy were very worried, because they didn't know how it had happened, or why it had happened or when it had happened.

So they decided to take her to the fairy doctor.
So they got into the car and they drove out of the garage and they drove to the fairy doctor's surgery and when they got there they sat in the waiting room for a while, waiting for the fairy doctor to come out and when she came out she said "hello Susana and what's the matter with you?" and Susana said "oh, doctor, my leg hurts, and I can't walk properly"
and the doctor said "well come into my office and lie down on the bed and we'll see what we can do". So Susana lay down on the bed and the fairy doctor started to feel her left leg (massage, massage)

and she worked her way from the thigh right down to the foot and up again and then she said "no, that's not the leg, it must be the other leg"
and she went to the right leg and she worked her way from the thigh right down to the foot and up again and then she said "I know what the problem is, the problem is the knee" and so she went fiddle, fiddle, fiddle, massage, massage, massage. CLICK and Susana "doctor, doctor, my leg doesn't hurt anymore"
and the fairy doctor said "get down off the bed and walk across the room" and Susana walked across the room and she didn't limp and she rushed over to the fairy doctor and she gave her a big kiss
and she said "doctor, doctor, thank you for making my leg all better " and the magic doctor said "it was a pleasure, come back any time".
And Susana and her mummy and her daddy got back in the car and they drove home and when they got home Susana had a lovely warm bath and got into her lovely warm pyjamas and she had some lovely warm supper and then, she practiced walking, and she walked from the telly to the sofa and from the computer to the dining room table and her leg didn't hurt and she could walk properly and then she went to bed and she went straight to sleep because she was very tired and it had been a very long day
and that's the end of the story and they all lived happily ever after.

Match the words in column A with column B

Column A	Column B
1. Limp	a. Where the doctor works
