- 1 I'm certain we **'ll** / **might** get a lot of geography homework this weekend.

- 4 We definitely **won't** / **might not** get our homework back before next week because the teacher's in London for a meeting today and tomorrow.

What subjects do you think students
1 learn at schools in the future?

That's a difficult question! I'm pretty sure they
2 still learn maths and IT. But I
don't know about art and drama and music. They
3 not be on the timetable in the future.

I agree, we 4 definitely still study
technology and computers. I'm sure everyone
5 start learning to program at a very early
age. But you 6 be right about arts subjects.
Students 7 do that in clubs or at home.
What do you think? I'm sure languages 8
be important but it's possible that everyone in the world
9 just speak one language!

I love arts, but I think you're right! I just hope the
one language 10 be the one I speak!
