

Propiedad distributiva de la multiplicación

- Observe las siguientes matrices, encuentre un enunciado de la multiplicación y aplique la propiedad distributiva.

$$\begin{aligned} \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{x}} (\underline{\underline{ }} + \underline{\underline{ }}) \\ \underline{\underline{x}} \underline{\underline{ }} &= (\underline{\underline{x}} \underline{\underline{ }}) + (\underline{\underline{x}} \underline{\underline{ }}) \\ \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{ }} + \underline{\underline{ }} \\ \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{ }} \end{aligned}$$

$$\begin{aligned} \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{x}} (\underline{\underline{ }} + \underline{\underline{ }}) \\ \underline{\underline{x}} \underline{\underline{ }} &= (\underline{\underline{x}} \underline{\underline{ }}) + (\underline{\underline{x}} \underline{\underline{ }}) \\ \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{ }} + \underline{\underline{ }} \\ \underline{\underline{x}} \underline{\underline{ }} &= \underline{\underline{ }} \end{aligned}$$
